

**ANTibioticS and mobile resistance elements in WastEwater Reuse
applications: risks and innovative solutions**

H2020-MSCA-ITN-2015/675530 - ANSWER

**Outreach Activity 4:
"Radio interview"**

ESR 8: Đorđe Tadić

**The Spanish National Research Council (CSIC) -Institute for Environmental
Assessment and Water Research (IDAEA)**

"This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No 675530"

Description

- Date of the event: 17th of April, 2017
- Place where the event took place: HighChem Ltd, Leškova 11, Bratislava, Slovakia
- Audience Details (number of participants, age, sex, etc.): Radio Slovensko is the most popular radio station in Slovakia. The interview was played in 27th of April at prime time (6.09 am and 13.48 pm) according to the program of the radio station: <http://www.rtv.s.sk/radio/program?date=2017-04-27>)
- Description of the topic of your presentation: In this radio-talk Nikiforos and I introduced the ANSWER project, antibiotic resistance in the environment and risk associated with wastewater reuse. Irrigation of plants with recycled wastewater, uptake and metabolization of antibiotics were described more in details.

Announcement of the (i.e. café scientific) event

We did not know the exact date when the interview would be on air. Therefore, no announcement was made in the social media. However, recording is available on demand at <http://slovensko.rtv.s.sk/clanky/spolocnost/132084/antibiotika-v-zivotnom-prostredi>

Dissemination material distributed during the event

No dissemination material was distributed.

Photos of the event

Final Remarks

- We are thankful to Dr Robert Mistrik who helped us to arrange the interview at radio and for explaining some difficult terms to the journalist in Slovak language. The interview was translated by the journalist in Slovak language so that Slovak listeners fully understand the content of the interview.
