Please find the presentation attached separately.

### Why internationalize research?

#### Benefits for you:

- Mobility helps to increase the network and knowledge associated with your field of study
- Better profile, improving future career prospects
- Learn a new language

#### Benefits for EU

- Can research on issues that can aid in the EU policy development
- Access to better research funding owing to internationalization of institutes
- Improvement of cultural tolerance, and open-mindedness among the people by interacting with people from various cultural and religious backgrounds

### Application Information

- Website of the specific institute/ University you are interested in
- EURAXESS website (<https://euraxess.ec.europa.eu/>)

### The H2020 / ETN Programme

**High Salaries**  
Excellent research funding

**Opportunities to conduct secondments in other countries**

**Benefit from international training in scientific and non-scientific aspects of PhD**

**Disseminate scientific knowledge to the non-scientific community**

### My personal growth

### Experience through dissemination and training activities

## Thank you!
